OPINION

Zoning Text Amendment No. 06-08 was introduced on March 21, 2006 for the purpose of:

- 1) reducing the allowable rear yard coverage and maximum height of an accessory building in certain zones;
- 2) increasing the minimum setback requirement for an accessory building under certain circumstances;
- 3) providing for continuation of existing accessory building as conforming uses; and generally amending accessory building standards in certain zones.

The Montgomery County Planning Board in its report to the Council recommended that the text amendment be approved with revisions.

The County Council held a public hearing on May 2, 2006, to receive testimony concerning the proposed text amendment. The text amendment was referred to the Planning, Housing, and Economic Development Committee for review and recommendation.

The Planning, Housing, and Economic Development Committee held a worksession on June 19, and June 26, 2006 to review the amendment. Under the ZTA, the allowable rear yard coverage for an accessory building would be reduced, setbacks increased, and building height reduced in the R-90, R-60, R-40, and R-4plex zones. In particular, ZTA 06-08 would require additional setback from the rear or side property line for any accessory "building or structure" that has a linear dimension greater than 24 feet. Department of Permitting Services interprets "structure" to include a swimming pool. The Committee recommended that ZTA 06-08 be approved with a revision to clarify that a "swimming pool" is not subject to the additional setback requirement, since a swimming pool would probably not have the same impacts on adjacent property as the other construction types included under the definition of "structure". The Committee also recommended a provision be included allowing existing accessory buildings to continue under the standards in effect when the accessory building was constructed. However, any replacement or reconstruction would be required to conform to the standards in effect at the time of replacement or reconstruction. The Committee recommended recognizing the special circumstances of the Town of Garret Park and retaining a 25% rear yard coverage limit on accessory buildings for lots less than 8,600 square feet in size.

ZTA 06-08, as introduced, included amendments to the definition of accessory use. Those changes were approved by the District Council on July 11, 2006 when it approved ZTA 06-10. No changes to the definition of accessory use are included in this amendment.

The District Council reviewed Zoning Text Amendment No. 06-08 at worksessions held on July 18, 2006, and September 19, 2006, and agreed with the recommendations of the Planning, Housing, and Economic Development Committee.

For these reasons and because to approve this amendment will assist in the coordinated, comprehensive, adjusted and systematic development of the Maryland-Washington Regional

District located in Montgomery County, Zoning Text Amendment No. 06-08 will be approved as revised.
